Ro	x No. 1 Basis of this opinion
1.	With regard to the language, this opinion has been established on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item.
	This opinion has been established on the basis of a translation from the original language into the following language, which is the language of a translation furnished for the purposes of international search (under Rules 12.3 and 23.1(b)).
2.	With regard to any nucleotide and/or amino acid sequence disclosed in the international application and necessary to the claimed invention, this opinion has been established on the basis of:
	a. type of material
	a sequence listing
	table(s) related to the sequence listing
	b. format of material
	on paper
	in electronic form
	c. time of filing/furnishing
	contained in the international application as filed.
	filed together with the international application in electronic form.
	furnished subsequently to this Authority for the purposes of search.
3.	In addition, in the case that more than one version or copy of a sequence listing and/or table relating thereto has been filed or furnished, the required statements that the information in the subsequent or additioanl copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.
	filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that
	filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.
	filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.
	filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.
	filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.
	filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.
	filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.
	filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.
	filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.
	filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.
	filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.
	filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.
	filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.
	filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.
	filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.
	filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.
	filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.

International application No. PCT/KR2006/000125

Box No. V Reasoned statement under Rule 43bis.1(a)(i) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

Novelty (N)	Claims	3-5, 7-10, 13, 14, 17-19, 21-24	YES
	Claims	1, 2, 6, 11, 12, 15, 16, 20	NO
Inventive step (IS)	Claims		YES
	Claims	1-24	NO
Industrial applicability (IA)	Claims	1-24	YES
	Claims		NO

#### 2. Citations and explanations:

The following documents have been considered for the purpose of this written opinion:

D1: KR 2002-94437 A

D2: KR 2001-56244 A

D3: KR 2004-102458 A

D1 relates to a system and method for managing a written notice using a two-dimensional bar code to perform a receipt business rapidly through reading a two-dimensional bar code.

D2 relates to a system and method for issuing/paying an electronic notice using a relay server to reduce a time and a cost through a communication network.

D3 relates to an automatic terminal and a method to make a public fee transaction more convenient by using a 2 dimensional bar code.

#### Novelty:

Claims 1, 2, 11, 15, and 16 of the present invention are independent claims and relate to a system and a method of bill payment using two-dimensional (2D) code.

The system is comprised of a receipt management database, a financial institution sever, a relay sever, and a payee sever including an bill information extracting, a code converting into 2D code, a bill transmitting and a controller.

Claims 6, 12, and 20 of the present invention are dependent claims and describe providing payer information from the financial institution sever to the controller after bill payment.

D1 is comprised of a communication terminal, a notice notifying device, a notice transmission device, a notice receipting device and a notice management sever.

International application No.

PCT/KR2006/000125

#### Supplemental Box

In case the space in any of the preceding boxes is not sufficient. Continuation of:

BOX V.

The communication terminal receives an issued notice, the notice notifying device notifies a message with respect to a notice issuing state to applicants, the notice transmission device converts a inputted essential data into a two-dimensional bar code format, and the notice receipting device transmits payment results to the notice transmitting device and the notice management sever.

D1 is same to that of the present invention in problem to be solved. Therefore, novelty of the claims 1, 2, 6, 11, 12, 15, 16, and 20 of the present invention can not be acknowledged.

#### Inventive Step:

Since claims 1, 2, 6, 11, 12, 15, 16, and 20 of the present invention is not considered to involve novelty, the claims 1, 2, 6, 11, 12, 15, 16, and 20 of the present invention lacks an inventive step.

The rest of the claims of the present invention describe that a relay sever, a management sever, and ATM are added to the system.

The relay sever and the management sever are reprocessing bill/payer information, the system make a notice of arrears and has ATM to pay bill using 2D code.

D1 is similar to that of the present invention in technical feature for issuing notice, paying notice, and making a notice of arrears.

D2 describes that an electronic notice certification system issues and manages an electronic certification document, and a electronic notice paying relay server connects to a bank host or a credit card company host.

D3 teaches that an automatic terminal capable of public fee transaction using bar codes includes a card reader identifying various cards, a bar code scanner reading bar codes having information on public fees, a display, an issuing device, a central controller, an input portion, and a communication portion.

Thus, a skilled person can easily invent the system and the method of claims 3-5, 7-10, 13, 14, 17-19, and 21-24 from combination of mentioned D1, D2 & D3.

Therefore, The inventive step of the claims 1-24 of the present invention is not acknowledged.

#### Industrial Applicability:

All claims are considered to be industrially applicable.

Applicant DUZC	DN DASS CO., LTD et al

- 1. By means of this Form, which replaces any previously issued notification concerning submission or transmittal of priority documents, the applicant is hereby notified of the date of receipt by the International Bureau of the priority document(s) relating to all earlier application(s) whose priority is claimed. Unless otherwise indicated by the letters "NR", in the right-hand column or by an asterisk appearing next to a date of receipt, the priority document concerned was submitted or transmitted to the International Bureau in compliance with Rule 17.1(a) or (b).
- 2. (If applicable) The letters "NR" appearing in the right-hand column denote a priority document which, on the date of mailing of this Form, had not yet been received by the International Bureau under Rule 17.1(a) or (b). Where, under Rule 17.1(a), the priority document must be submitted by the applicant to the receiving Office or the International Bureau, but the applicant fails to submit the priority document within the applicable time limit under that Rule, the attention of the applicant is directed to Rule 17.1(c) which provides that no designated Office may disregard the priority claim concerned before giving the applicant an opportunity, upon entry into the national phase, to furnish the priority document within a time limit which is reasonable under the circumstances.
- 3. (If applicable) An asterisk (\*) appearing next to a date of receipt, in the right-hand column, denotes a priority document submitted or transmitted to the International Bureau but not in compliance with Rule 17.1(a) or (b) (the priority document was received after the time limit prescribed in Rule 17.1(a) or the request to prepare and transmit the priority document was submitted to the receiving Office after the applicable time limit under Rule 17.1(b)). Even though the priority document was not furnished in compliance with Rule 17.1(a) or (b), the International Bureau will nevertheless transmit a copy of the document to the designated Offices, for their consideration. In case such a copy is not accepted by the designated Office as the priority document, Rule 17.1(c) provides that no designated Office may disregard the priority claim concerned before giving the applicant an opportunity, upon entry into the national phase, to furnish the priority document within a time limit which is reasonable under the circumstances.
